

Butterfly Bingo

During the long and sunnier days of Spring and Summer, you can see butterflies dancing around from flower to flower.

Butterflies are large insects with brightly coloured and patterned wings. Just like bees they are pollinators and seeing lots of them can show a healthy environment. Using our butterfly checklist below how many can you spot?

What you'll need

- Pen or pencil
- Butterfly bingo sheet (below)
- Clipboard (optional but they help to write and draw with)

What to do/instructions:

1. Take this butterfly bingo sheet with you on your next walk
2. Tick off any butterflies you see
3. If you see a butterfly that's not on this list, in the empty squares below (or on a blank sheet of paper) try and draw the butterfly and when you get home and figure out what it could be!

Why not download our Butterfly Feeder craft activity to attract butterflies to your garden and see how many you can spot!
