

Make a mobile out of different leaves and hang them up to make your very own natural windchime

Make your very own leaf mobile out of your favourite shaped leaves. Hang them up and the leaves will rustle together in a breeze. Close your eyes and you could pretend you are in the woodland.

What you'll need

- Two sticks (about the same size)
- String
- Different shaped leaves

What to do/instructions:

1. Collect as many different shaped leaves as you can find
2. Make a cross out of your two sticks and tie them in the middle with some string.
3. Carefully thread pieces of string through the leaves and tie the string to your cross (one string per leaf)
4. Hang the mobile up and watch the wind gently blow through the leaves like a natural windchime. You could even add feathers to add colour!
