

Teddy Bear Teepee

Build a shelter for your teddy bear to enjoy the outdoors

Create a small den to enjoy some outdoor adventures with you and your family.

What you'll need

- Sticks
- String
- Leaves and other natural materials

What to do/instructions:

1. Collects lots of sticks, (around the same length) and stick them into the ground in a circle. If the ground is too hard don't worry you can just balance the sticks on the ground
2. Gather the sticks together at the top and tie
3. You can use string or wool to tie the top of your tepee. Can you find any natural materials that could work as a string?
4. Use leaves or moss to cover your sticks and create a shelter. You could even use an old tea towel to cover the tepee.
5. Now use your den to have some outdoor fun!

Some ideas:

Make some more mini dens around the garden for all your teddy bears to enjoy a picnic.

If you manage to do this, try making your own den for yourself with some larger sticks and logs!

We would love to see your creations! Share your photos with us on Instagram or twitter /cityoftreesmcr
